

# First Time User Quick Demo Step-by-Step Guide

Follow the steps below

2025 New WhatsApp Software

**Devices**

**01**

**Group and Leads**

**02**

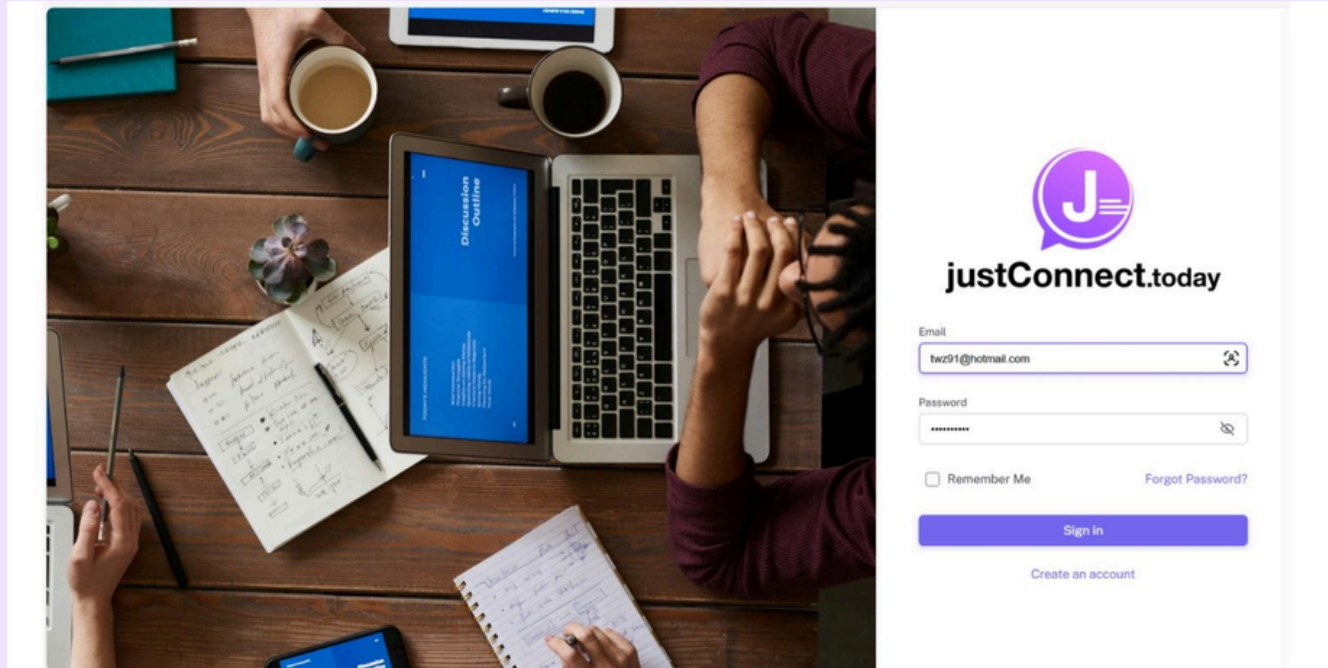

**Draft Message  
& Schedule  
and Blast**

**03**

# What you get under Free Trial?

- 1.3 days active period
- 2. Daily 50 free messages
- 3. 1 WhatsApp account

# Step 1

## Connect Devices

The screenshot displays the justConnect.today web application. On the left sidebar, the 'Device' option is highlighted. The main content area shows a table of devices with columns for NO., DEVICE NAME, DEVICE PHONE NUMBER, DEVICE STATUS, and ACTIONS. A modal window titled 'QR Code' is open, displaying a QR code and the instruction: 'Please scan the QR code from your WhatsApp application to connect the device.' The modal also features a close button (X) in the top right corner.

QR Code

Please scan the QR code from your WhatsApp application to connect the device.

1. Navigate to Devices
2. Create Device Name
3. Click "Green Plug", scan QR code via "Linked Devices" in your WhatsApp

# Step 2

## Create Group and Leads

1. Create Group Name under "Group"
2. Create Leads
3. Under create leads, select the group created, input name and \*phone number\* (with WhatsApp account)
4. Go ahead create 2 - 5 leads with WhatsApp account for demo

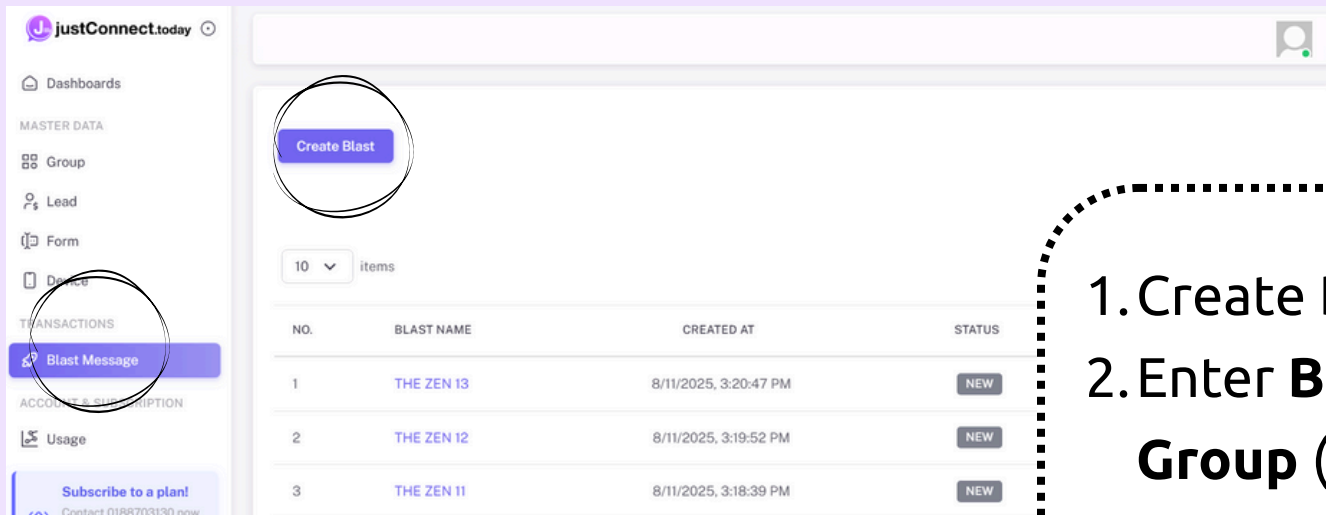

The screenshot shows the 'Create Lead' form in the justConnect.today application. The form includes the following fields:

- Group Name:** A dropdown menu with 'Select value' as the placeholder.
- Name:** A text input field with 'Please enter name' as the placeholder.
- Email:** A text input field with 'Please enter email' as the placeholder.
- Phone number:** A text input field with a country code dropdown (showing '+60') and a red asterisk indicating it is a required field.

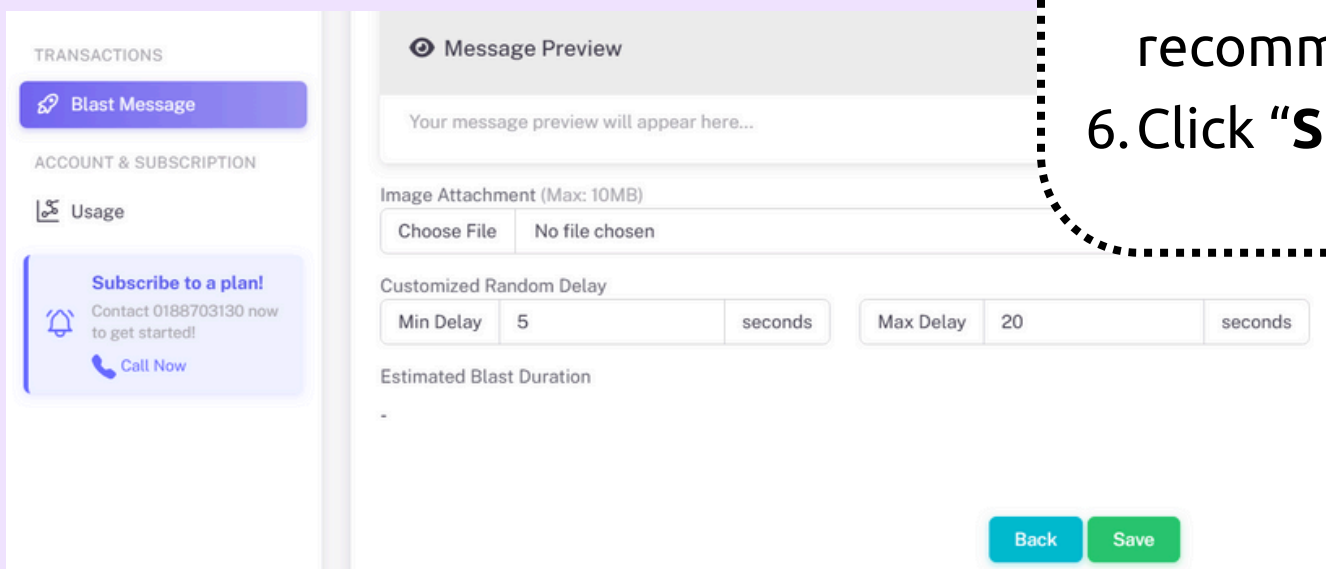

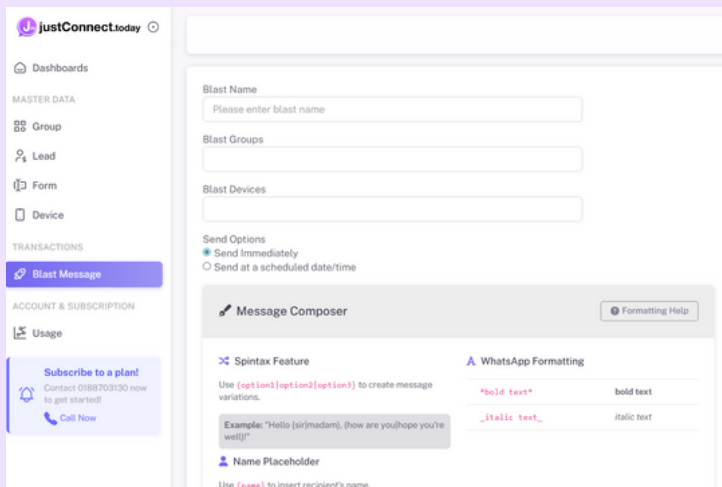

At the bottom of the form, there are two buttons: 'Back' and 'Save'.

# Step 3

## Schedule and Blast

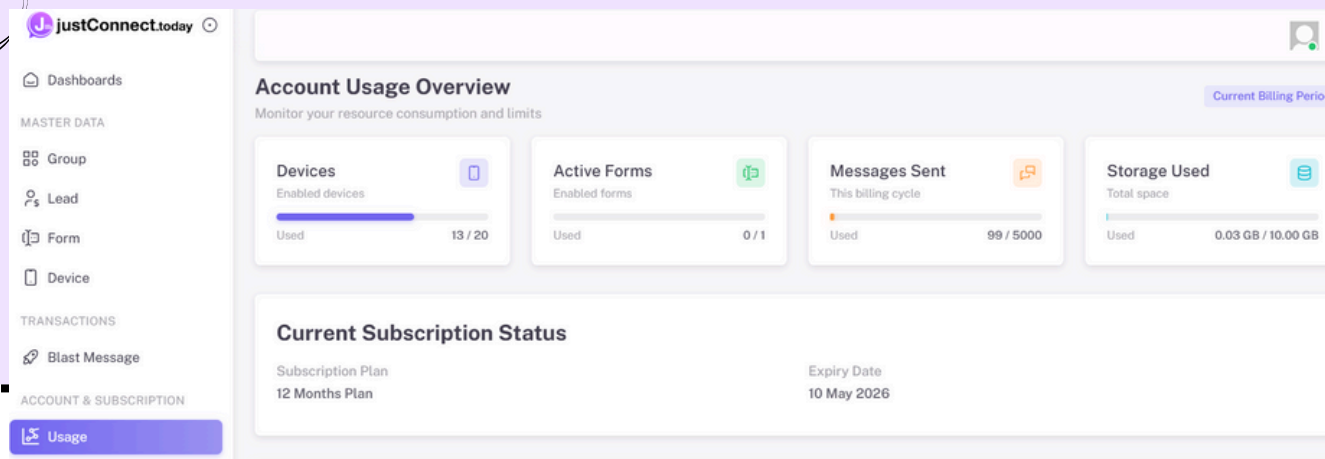

1. Create **Blast**
2. Enter **Blast Name** (any), select **Blast Group** (group created previously), select **Blast Devices** (connected previously)
3. **Schedule** time or send immediately
4. Insert **message** to blast, any message you prefer. Attach image if needed.
5. Set Min **Delay** 5 seconds Max Delay 20 seconds (for testing), recommended 120s - 360s for actual.
6. Click "**Save**"

# Congratulations!
